

FACT SHEET

Pediatric Services

FISCAL YEAR 2023
REVISED 3/15/2024

Community Medical Centers: Fiscal Year 2023 Key Figures

Annual deliveries	8,094
Percentage of Fresno County babies	51%
Annual pediatric visits	43,370
Percentage of annual pediatric patient visits	8%
Breastfeeding and Parent Education Classes through the Mother's Resource Center	\$182,000

Community Regional Medical Center: Fiscal Year 2023 Key Figures

Community Regional's Level III NICU means we're licensed to care for some of the sickest infants. According to the American Medical Association, studies have shown that extremely premature babies have a 62% increased risk of dying if they are born at a hospital without a Level III NICU, compared to those born at a hospital with one.

Level III NICU & High Risk Deliveries

Licensed beds	84
Average daily census	50
Births	3,699
Total admitted to NICU	717
Transfers from other hospitals	144
Percentage of babies born less than 5lbs 8oz	17%
Percentage of babies born less than 3lbs 5oz	5%

At Community Regional, we deliver some of the highest rates of babies at very low birth rates (less than 3lbs 5oz) in the state of California.

Key Points in History

2008

65-bed Level III NICU opens at Community Regional

2011

19 beds added to Community Regional's Level III NICU; total 84

2015

UCSF Benioff and Community Medical Centers enter agreement to increase access to pediatric subspecialists here

2016
