

CLOVIS COMMUNITY EXPANSION

PHASED OPENING THROUGH 2022

MAIN CAMPUS

- A second 5-story bed tower with 144 private patient rooms, including 24 ICU beds
- 6 new inpatient operating rooms
- Expanded and redesigned emergency department
- Expanded and centralized imaging department with new equipment
- Expanded support services:
 - Kitchen & dining
 - Lab
 - Energy plant
- 617-stall parking structure
- Clinical & administrative general support building

Upon completion, the main campus expansion will provide over 400 new job opportunities for nurses, therapists, technicians and support staff and is expected to employ 2,500 local trade workers while under construction.

HEART & LUNG INSTITUTE

- Centralized patient registration for both inpatient and outpatient services
- 3 new cath labs
- 2 new cardiac operating rooms
- 1 hybrid operating room equipped with surgical & medical imaging devices

The Heart & Lung Institute will be the first-of-its-kind multi-disciplinary, cardiothoracic and pulmonary program in the Valley. Once complete, patients will have access to Community's comprehensive heart and lung system of care under one roof.
