

Fact Sheet: Community Health System

Background

Community Health System is a locally owned, not-for-profit, public-benefit organization based in Fresno, California. We are the region's largest healthcare provider and private employer and operate a residency program with one of the nation's top medical schools – the University of California, San Francisco.

Our health system is affiliated with more than 1,800 physicians and includes a growing medical foundation. Our health plan, Community Care Health, one of the largest HMOs in the region. We operate four acute-care hospitals – Community Regional Medical Center, Clovis Community Medical Center, Fresno Heart & Surgical Hospital and Community Behavioral Health Center – as well as several long-term care, outpatient and other healthcare facilities. All of Community's hospitals are fully accredited by the Joint Commission.

Community is home to the only Level 1 Trauma Center and comprehensive burn center between Los Angeles and Sacramento. We also serve as the area's "safety net provider." In fiscal year 2021, Community provided \$231 million in uncompensated services and programs.
