The Joint Commission Accreditation

Fresno Heart & Surgical Hospital is accredited by The Joint Commission and has been awarded its Gold Seal of Approval™.

Background

Fresno Heart & Surgical Hospital opened in north Fresno in 2003, as the Fresno Heart Hospital, solely providing cardiovascular surgery and procedures. It was initially designed to treat patients with cardiac and vascular needs. In 2006, services expanded to include bariatric and general surgery. Consistent with its mission to provide exceptional care, the hospital expanded to also include minimally invasive surgery.

Fresno Heart & Surgical Hospital expanded in 2008 to add two specialty high-tech operating rooms and support service areas. The Advanced Diagnostic Testing Center, which offers outpatient laboratory, imaging and endoscopy services that support the hospital, was opened nearby in 2012. The hospital's conference and education center is located on its first floor.

Today, Fresno Heart & Surgical Hospital is a 48-bed specialty hospital located in north Fresno known for its luxurious accommodations, excellent patient experience and five-star cardiac, vascular and bariatric surgery services. The hospital also offers restaurant quality cuisine that caters to individual patient needs and tastes.

Metabolic and Bariatric Care

Fresno Heart & Surgical Hospital specializes in providing top-notch metabolic and bariatric care. The hospital's bariatric program is one of the busiest bariatric programs in California. It ranks in the top 10% nationally for quality outcomes and has helped thousands of patients resolve diabetes, sleep apnea, GERD, hypertension and other health threats.

The program has earned accreditation by the American College of Surgeons and the American Society for Metabolic and Bariatric Surgery. The American Society for Metabolic and Bariatric Surgery has also named Fresno Heart & Surgical a Center of Excellence.

Cardiac and Cardiothoracic Care

With a reputation for providing outstanding quality and service, Fresno Heart & Surgical Hospital is well-known for offering exceptional overall cardiac and cardiothoracic care. With a world-class team of clinicians and physicians, these experts in their field use innovative techniques and state-of-the-art technologies to consistently provide patient outcomes that are better than state and national averages - with fewer complications, faster recoveries and shorter hospital stays.

Fresno Heart & Surgical Hospital has earned a three-star rating for its cardiac services as well as top ratings for coronary bypass and heart valve replacements.
